-

## Item 7.01 Regulation FD Disclosure

VisualMED Clinical Solutions Corp. (the "Company") announces that an initial license fee of \$1.5 million will be paid to the Company, as well as a royalty stream equal to 15% of gross sales from all revenue sources of its licensee Medical.MD.

Medical.MD of Montreal, Canada, holder of a master license to deploy the VisualMED interactive electronic patient record over the web as a Personal Health Record for the internet community, has entered into the deployment phase of its web solution based on VisualMED's medical applications.

Medical.MD has entered into a marketing alliance with one of the world's largest advertising agencies and will be seeking group sales of subscriptions for its web based Personal Health Record.

Operationally, the website architecture, informatics services and web hosting is being outsourced to a leading provider of internet information technology who brings to the task its global reach and marketing network.

Contractual obligations preclude the company from disclosing the names of the Medical.MD partners until certain benchmarks have been met.

Medical.MD internet services are based on the same VisualMED medical expertise technology currently in use in cutting-edge paperless hospitals in the United States and Canada. Medical.MD is currently in negotiations that could bring it tens of millions of dollars in initial revenues through sales to large corporate buyers.
